### COURSE INFORMATION

#### **PREREQUISITES:**

N/A

#### **COURSE DESCRIPTION:**

ACCPac Accounts Payable for Windows is a module that can be used independently or integrated with other ACCPac module based accounting programs. It operates on a batch accounting system method. It allows multiple batches to be created by multiple users, and ensures that a correct audit trail is maintained. One of the more powerful features of the program is the system reporting capabilities. Learn how to optimize the substantial features within this accounts payable module system.

#### **COURSE GOALS:**

As the student works through the sections of this course, they will gain experience in the following areas of ACCPac Accounts Payable:

- The ACCPac Windowing System Manager
- Moving around the Windowing System Manager
- Adding/Modifying/Deleting Start List items
- Setting up printers for use with ACCPac
- Setting the ACCPAC program options
- Invoking and navigating the ACCPac Help system
- Passwording and security within ACCPac
- Creating data files for the ACCPac Accounts Payable
- Backing up and restoring data files
- Integrating with the ACCPac General Ledger and other general ledgers
- Entering Accounts Payable vendors
- Entering invoices/credits transaction documents
- Entering manual cheque batches
- Printing cheques and modifying specifications
- Entering Accounts Payable adjustments
- Posting Accounts Payable transactions
- Printing Accounts Payable reports
- Handling vendor inquiries

- Using the Accounts Payable statistical features
- Month-end and year-end processing

**MAJOR COURSE OBJECTIVES:**

To have sufficient hands-on experience using the ACCPac for Windows - Accounts Payable module.
